

AJIT RATHOD

Java Full Stack Developer | Java | Spring Boot | SQL | HTML | CSS | JavaScript | REST APIs

+91 8956951775 | ajitrathod8674@gmail.com | Pune, Maharashtra, India

PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience gained through a 6-month internship in software development. Skilled in **Java, Spring Boot, SQL, HTML, CSS, JavaScript, REST APIs, MySQL, Git, and Software Development Lifecycle (SDLC)**. Strong understanding of Object-Oriented Programming (OOP), backend development, frontend development, database management, debugging, testing, and application deployment. Passionate about developing scalable web applications and contributing to enterprise software development projects in Agile environments.

TECHNICAL SKILLS

- **Programming Languages:** Java, SQL, JavaScript
- **Backend Technologies:** Spring Boot, Spring MVC, Core Java, REST APIs
- **Frontend Technologies:** HTML5, CSS3, JavaScript, Bootstrap
- **Databases:** MySQL, PostgreSQL
- **Tools & Platforms:** Git, GitHub, Postman, IntelliJ IDEA, Eclipse, VS Code
- **Build Tools:** Maven
- **Testing:** JUnit, API Testing, Debugging
- **Concepts:** OOP, Collections Framework, Exception Handling, SDLC, Multi-threading
- **Methodologies:** Agile, Scrum

INTERNSHIP EXPERIENCE

SOFREGO PRIVATE LIMITED | Jan 2026 – Present

Java Full Stack Developer Intern

Key Responsibilities

- Assisted in developing web applications using **Java, Spring Boot, SQL, HTML, CSS, and JavaScript**
- Worked on **REST API development, backend integration, and database operations**
- Developed responsive user interface components using **HTML, CSS, Bootstrap, and JavaScript**
- Participated in **bug fixing, debugging, testing, and application enhancement** activities
- Created and optimized **SQL queries** for application data management

PROJECT EXPERIENCE

SmartRetail E-Commerce Management System

Role: Java Full Stack Developer Intern

Project Description

Developed an E-Commerce Management System designed for product catalog management, inventory tracking, customer management, shopping cart operations, order processing, and sales reporting. Built scalable backend services using Java and Spring Boot and developed responsive frontend screens using HTML, CSS, JavaScript, and Bootstrap. Integrated REST APIs and MySQL database for efficient business operations and customer management workflows.

Responsibilities

- Developed backend modules using **Java, Spring Boot, and REST APIs**
- Created responsive frontend pages using **HTML, CSS, JavaScript, and Bootstrap**
- Designed and managed **MySQL database tables, relationships, and SQL queries**
- Implemented **CRUD operations, validations, and business logic workflows**
- Performed **testing, debugging, and issue resolution** activities

EDUCATION

Bachelor of Engineering (B.E. – Computer Science Engineering)

Dr. Babasaheb Ambedkar Technological University
